

RECYCLED LINE - EURONORM STACKING BINS

400x300 & 600x400

The 'Recycled Line' Euronorm stacking bins are manufactured in **recycled polypropylene**. Thanks to their **standardised dimensions**, they lean perfectly for optimum goods handling. The crates are stackable and can be closed by means of an **upright lid** (available separately). The crates have 2 handgrips, except for the lowest model.

Recycled Line 400x300 - black

Art. nr.	height (mm)
BRC-4120-020	120
BRC-4172-020	170
BRC-4222-020	220
